

Mite
ROOF SYSTEM

**Visually stunning, inspiring
and unlimited lantern roofs**

Rococo's lantern roof systems deliver supreme aerial views for you to enjoy. Streamlined elegance, combined with market leading technology, enables our roofs to achieve a U Value as low as 1.2 W/m²K.

- Thermally broken aluminium roof lanterns
- One of the strongest and most thermally efficient products available
- Contemporary sleek design and clean edges
- Fantastic addition to orangeries or extensions
- 40mm site lines on the rafters
- Slim line technologies mean no bulky corner cove sections
- Made to measure
- Full site surveys, delivery and installation
- 10 year guarantees

Also available in this range

PYRAMID SKYLIGHTS

Constructed with ultra-thin connectors in order to maximise the amount of natural light that comes into your room, our Pyramid Skylights are an ideal option for the smaller aperture requirements. Available with either double or triple glazing with solar control and privacy options.

FLAT ROOF LIGHTS

High performance triple glazed flat roofs lights made out of thermally broken extruded aluminium. Available in any RAL colour to match your exact requirements, these systems have minimal glazing connectors which allow for maximum light transmission. Solar control and privacy options available.

Call the design team today!

Please call **01794 511180** if you would like to speak with one of the design team to find out more information on our Roof lanterns and the options you have. We can then discuss the style which will best suit your home and custom design the lantern roof to meet your requirements
